Wortham's Shows Filled  
With Amusements; Many  
Additional Features.

Wortham's wonder carnival of a hundred and more delightful games Tuesday night, to crowds that poured in and out of every tent throughout the entire evening. There is more square feet of amusement at West Overland and Durango streets than can be found any place else in Texas and the fun is to continue for two weeks.

The Worthams show this year have many new features. A large tent full of war relics is one of the main points of interest. This exhibit is free. It includes shields and guns of every description; helmets, barb wire, gas masks, mortars, grenades and instruments of other things from the trenches.

**Texas Joe Popular.**  
Texas Joe, the man who walks on sharp knife blades and broken glass in his bare feet holds a good sized portion of the crowd. Betty Ray, the girl who weighs all in a popular attraction as is the booth containing the Texas twins. The Texas twins are the ladies of two premature babies linked together after the famous fashion and preserved in alcohol.

The prize contest in Blue-Blind, the man who plays with electricity, Joseph Cole, the glass blower, makes trinkets out of heated glass. Shape and color make no difference. In addition to the individual performers of which one must not forget to include Ruth, the girl who does with her feet things which many persons can not do with their hands, there are many company stunts including Double Jewell's performance on which daredevil ride motorcycles and automobiles around a large inverted dome.

**Merz Hot Act.**  
Perhaps the greatest act of all is that of F. C. Wood, known as the "pecker," who sits in a large, covered cage with the heads of live lions. While he lectures on the subject of how the little insects fly all over him, but never sting him. There is a large tent full of am-

**MEMBERS OF PARLIAMENT  
WANT INCREASED SALARIES**  
London, Eng., Nov. 24.—Labor members of parliament here are acting for an increase in their parliamentary salaries, which now are about £200 a year. The present salary, which represents a pre-war purchasing value of approximately £100, is regarded as hopelessly inadequate for the maintenance of a legislator in London.

It is understood that a proposal is to be put forward for a modified plan of payment by attendance. The demand which is being canvassed is that every member of parliament living out of London should be entitled to traveling expenses and a substantial allowance of \$5 for every day on which he attends parliament.

Many people in El Paso and the Southwest are thankful for the comfort and convenience of the Kryptok Bifocal. No longer do we have to peer over our reading glasses or remove them, as before. We have with two pairs and "How well we look in the Kryptok Glasses." A clear, smooth, even surface to see through certainly adds to the appearance and comfort. No one can tell that you are wearing near-and-far vision glasses. Kryptok glasses are entirely free from steam or bumps; their surfaces are clear, smooth and like single vision lenses. That is why they are universally known as "the invisible bifocals."

**To Avoid Rough, Coarse, Chapped, Blotchy Skin**  
Most skins require constant grooming at this season to keep them from becoming unattractive. Rough, coarse, red or blotchy skin conditions have developed, to wear. It is such skin that is particularly liable to keep skin of complexion which clog the pores and make the complexion worse than ever.

**It's a lot more sensible to use ordinary moisturized wax, which literally absorbs a sticky condition. Apply the wax like cold cream, before retiring. Next morning, in washing it off, you'll wash away the clogged pores of the complexion. Repeat for a week or more and you'll have an entirely new skin—soft, white, open and beautiful as a child's. One ounce of moisturized wax, procured at any drugstore, is all you'll need—**Adv.****
